

LOKESHWARAN V

SOFTWARE ENGINEER | SOFTWARE DEVELOPMENT | CLOUD

+91 9942467795 | lokeshvb30000@gmail.com | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Computer Science graduate and Software Development Intern with hands-on experience in **software development, application troubleshooting, cloud technologies, databases, testing, and data analysis**. Experienced with React, Node.js, Express.js, MongoDB, Python, SQL, Git, REST APIs, and AWS. Contributed to application development, deployment, debugging, and database optimization in a real-world software environment. Strong problem-solving skills with an IEEE-published machine learning research project and a willingness to work across software, cloud, data, and QA roles.

KEY SKILLS

Programming: Python, Java, JavaScript, SQL

Web & APIs: React.js, Node.js, Express.js, REST APIs

Cloud & Tools: AWS, Git, GitHub, Vercel, Render, Railway, Figma

Databases: MongoDB, NoSQL

Data & ML: Data Analysis, Machine Learning, OpenCV, Prompt Engineering

Testing & Troubleshooting: Debugging, Functional Testing, Application Troubleshooting

WORK EXPERIENCE

Software Development Intern — Adrasti Pvt. Ltd., Bengaluru

Dec 2025 – Present

- Contributed to establishing the company's initial software application infrastructure and development foundation.
- Developed frontend and backend features using **React, Node.js, Express.js, and MongoDB**.
- Built and integrated REST APIs for frontend-backend communication and core application workflows.
- Managed features across **development, testing, debugging, and deployment, resolving application issues** across multiple modules.
- Collaborated using **Git/GitHub**, participated in **code reviews, and optimized database queries and application performance**.

PROJECTS

Learning Behavior Prediction System Using Eye Tracking

Python | OpenCV | Machine Learning

- Built a machine learning system** that predicts student engagement by analyzing eye-movement and gaze patterns during online learning sessions.
- Collected and preprocessed eye-tracking datasets**, applying computer vision techniques for gaze detection, feature extraction, and model evaluation.
- Generated analytical insights** to support personalized learning recommendations; findings published as an IEEE ICAECA 2025 paper.

Automated Invoice Generator

HTML | CSS | JavaScript | jsPDF | QRCode | LocalStorage

- Built a browser-based invoice automation tool** with dynamic customer/item entry, automated GST (CGST/SGST) calculation, and automatic invoice numbering.
- Generated professional A4 PDF invoices using jsPDF**, with payment QR code integration and LocalStorage-based invoice record management.

Digital Business E-Card

HTML | CSS | JavaScript | Responsive Design | Web Share API | Google Maps

- Designed a mobile-first digital business card** with one-tap calling, WhatsApp, social media, and website access from a single web experience.
- Integrated Google Maps navigation and the native Web Share API** for cross-platform sharing of the digital card.

CERTIFICATIONS & PUBLICATIONS

- Research published at the **IEEE ICAECA 2025 conference**: "Predicting Student Attention and Engagement Through Eye-Tracking Using Machine Learning." [Link](#)
- IBM Full Stack Software Developer** Professional Certificate — Coursera
- AWS Academy Graduate** — Data Engineering
- Eye Tracking Fundamentals** — Coursera
- Merit Scholarship** — Awarded for three consecutive years

EDUCATION

B.E., Computer Science & Engineering — Kumaraguru College of Technology

Jun 2022 – Apr 2025 | CGPA: 8.01

Diploma, Computer Science — Nanjiah Lingammal Polytechnic College

Jun 2019 – Apr 2022 | Percentage: 96%
